[BLM Mounment Acreage.xlsx](#)

Hi Nikki

Here is a new table showing monument acreages requested late last week. I hopefully incorporated your suggestions. I did leave in one column not specifically requested, "the date of proclamation" - because I felt it demonstrate the expansion component. I then split CSNM further to show the additional proclamation in the new table.

I am still trying to get a data base to split out State from Private lands but at the moment, I do not have the information.

I wanted you to see the table to decide if you like to forward to benjamin_simon@ios.gov as is or do you want to hold off one more day as I continue to track down the data layers to show the split from State and Private lands.

This is almost there. I think he also wanted to know on the other "federal" category if it's BOR etc. Ilana should have that in a file somewhere. Also he wanted the expansions broken out. I would also make the headers a little more user friendly ?? and take out any data/columns he didn't ask for

Here is the table I was thinking about answering Ben's questions. The one caveat it lump State with Private lands. Otherwise I have identified the co-managed units and other federal acres in the comment section (second table).

I crossed reference this table with what we have on the web site and is current information.

Sally/Tim,

Can you pull this together for Ben? Also I think we should start a table on google so we can keep track of all these collectively.

Subject: Monument acreage breakouts

Hi Nikki,

I was wondering if you might be able to clarify, for each monument, the acreage included within the boundary. In particular, would it be possible to get information to break out, by entity, number of acres included in each monument:

- xxx acres of BLM land
- xxx acres of NPS land
- xxx acres of BOR land
- xxx acres of Forest Service land
- xxx acres of state land
- xxx acres of private land

As you know, some monuments have "expansion areas." It would be helpful to get separate breakouts for the original area and any expansion areas.

Thank you for helping with this.

Ben
